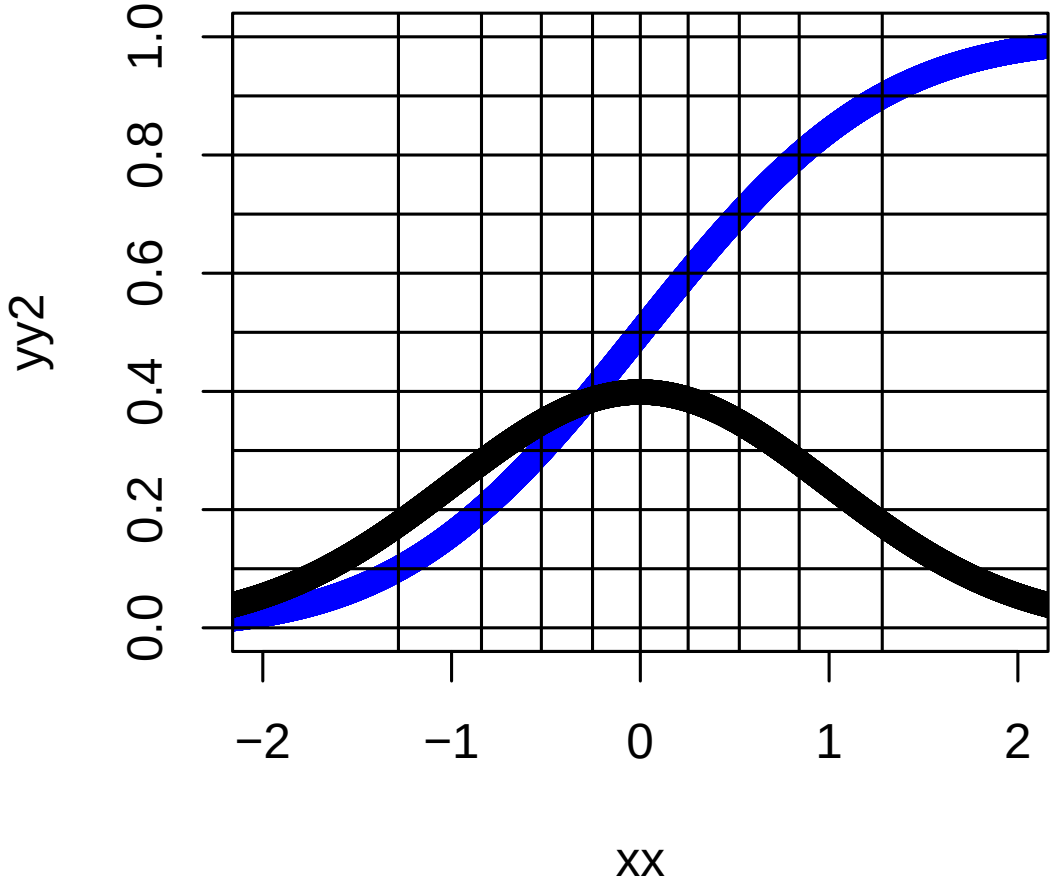
Carson Trego

October 2023

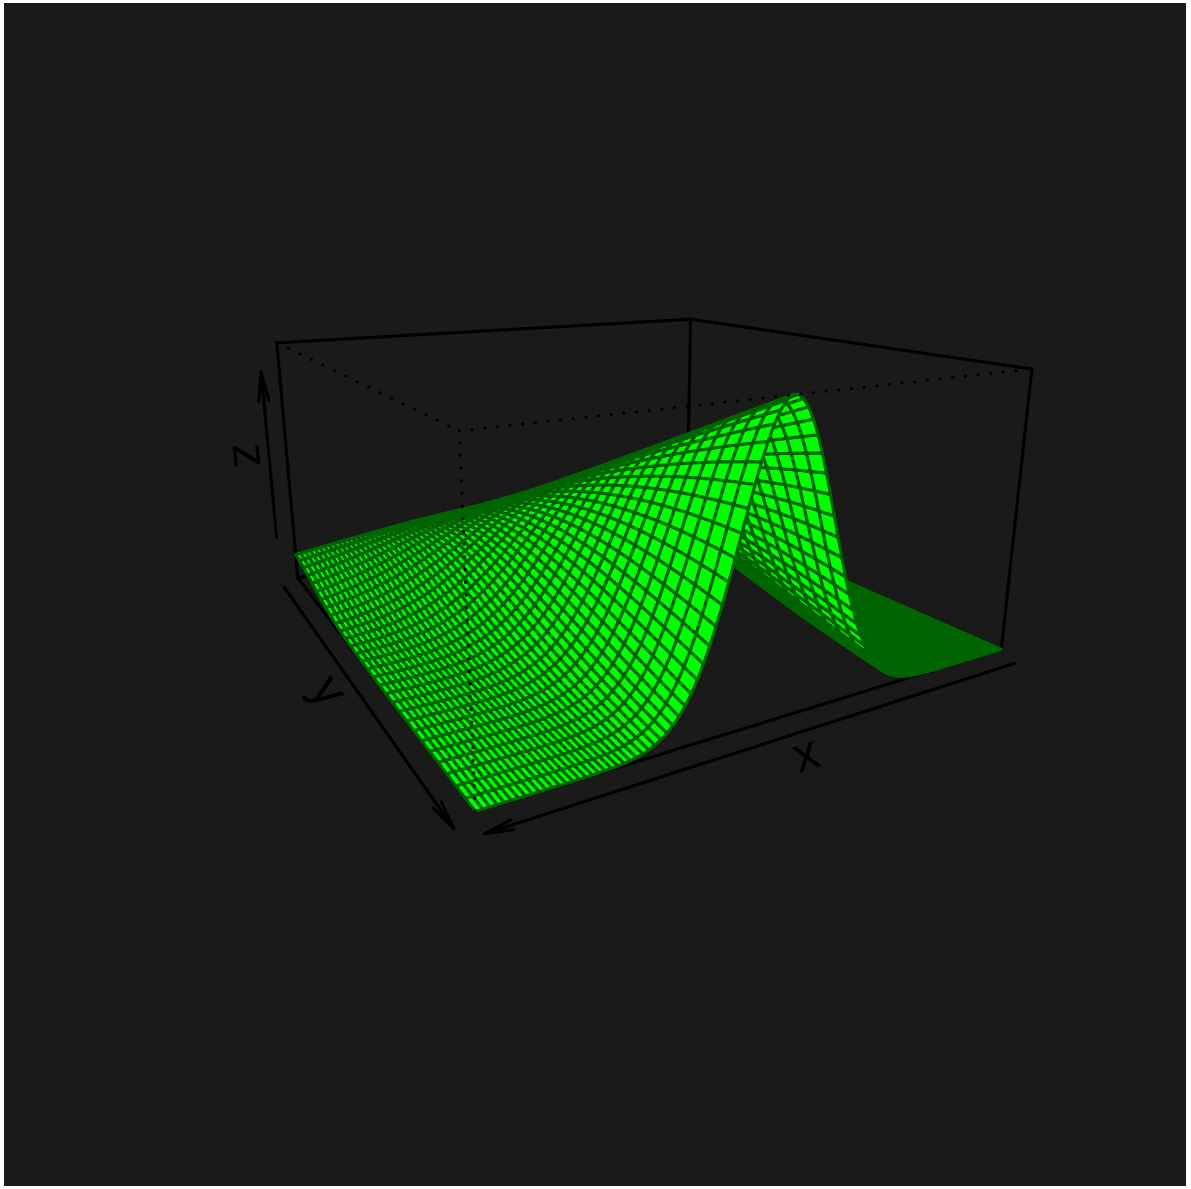
Carson Trego is a statistician working with the university of Nebraska-Lincoln. Carson is most well known for the Carson Distribution, which is a special case of the Gamma distribution.

this is my favorite animal, the tuffed deer

# Plot I made to get a better intuition for the probability integral transform



# Plot I made to show (somewhat) how the sampling distribution changes with larger sample size...but in 3D!



## here is my cv
